Hussar Ratepayers Want Herd By-Law And Early Closing

Important Resolutions Passed at
Ratepayers Meeting—Will Have
Electric Power in June

HUSSAR, March 6.—At a representative ratepayers' meeting held in A. Clifford's store Tuesday evening, March 5th, the following resolutions were passed:

That the council enact a herd by-law restraining cattle and poultry from running at large, and provide a suitable pound.

That the council pass an early closing by-law, that business places shall close at 6 p.m., excepting Saturday nights, and excepting from April 15th to May 15th, and during the months of August, September, and October, when they will keep open evenings; also that Wednesday half-holidays will be in effect from May 15th to August 1st.

That the council appoint a health officer.

The meeting was emphatically in favor of taking immediate action toward securing a permanent sports ground, sites and locations were sent in. Peter Hartman offered to sell 15 acres of land which would be between the C.P.R. right-of-way and the Calgary road, at \$70 per acre. J. H. Hursh offered the .46 acres where the stampede was held last year at \$35 per acre, and as there are at least \$400 of improvements from last year's stampede, the land would cost around \$300 to move them to a new location, the council was asked to arrange the purchase of this land from Mr. Hursh.

The master of sidewalk crossings was taken up, and it was recommended that a sidewalk be built from the hotel corner to the school, and that one of the larger older buildings receive a path leading to it.

Reeve Clifford reported that the Calgary Power Co. expect to have the lights in operation by the end of May.

The council was asked to take up the other by-laws, and passed auditor H. W. Ford's report. Accounts of H. W. Ford for auditing and Hussar Bulletin for publishing were passed.

Councilors present were Reeve A. A. Clifford, E. A. Holland, and E. J. Bell. E. N. Stiles, sec. treas.

POOL ELEVATOR HANDLINGS

The Alberta Pool elevators have to date handled close to 45 million bushels of grain from the 1928 crop. The leading Pool elevator is at Fort Macleod, where 342,000 bushels of wheat, 200,000 bushels of oats, 230,000 bushels of barley and 15,000 bushels of rye, the most is located in southern Alberta in a district which was at one time considered to be the "dry bit."

OLD POOL HALL IS IN HANDS OF THE WRECKERS

The old billiard hall and bowling alley on the main street next door to the Torgan store is being torn down. The town own this building and as it was in a bad state of repair and not deemed worth the cost of putting it in good condition, it was decided to tear it down. This building was formerly owned by Joe King. Bill Forster rented it for a number of years, and Hux Johnson was the last tenant.

Hussar News

HUSSAR, March 6.—H. D. Brown was on the sick list with the flu last of the week.

E. N. Stiles was quite ill last week.

W. E. Smith, business visitor to Hussar on Thursday.

The Ladies' Aid will meet at the home of Mrs. Anderson on March 11.

The members of Hussar Lodge A.F.

A. M. entertained their families on Friday evening last week.

Mr. and Mrs. Hartman had a great

time at the meeting.

The advertising contest was won by Margaret and Nettie LeGrandeur;

the guess correctly by Margaret.

Belinda and Mrs. Hartman

by Lois Nelson and Margaret Larsen.

The fortune teller was kept busy all

evening. The committee in charge

of the eats had a most enjoyable time.

Mr. and Mrs. LeGrandeur and

daughter-in-law, Mrs. Githken

came from Vancouver to attend

the meeting.

J. E. King, who has been very ill

with acute pneumonia, was reported

gaining strength very slowly.

Mr. and Mrs. L. O. LaGrange, who

have both been ill for some time,

were reported as much better.

Mr. and Mrs. Hartman put on

the appliances of the Hussar U.S.A.

and Board of Trade on Friday.

March 15th, the play is interesting

and entertaining. The title is "Back

to the Farm."

Hilda, the maid - - - Mildred Holland

Director - - - Sam Ellington

Bassano Hospital District Shows Financial Strength

Auditor's Report Reveals Surplus for
The Past Year

The auditor's report for the Bassano Municipal Hospital District No. 6, which appears in this issue of the Mail, shows the district to be in splendid financial condition.

A surplus of \$16,613.50 is shown for the year 1928, being the amount of receipts in excess of operating expenses and depreciation. Of the receipts \$12,369.24 was by tax levy, and \$2,165.62 was government grant. The hospital fund amounted to \$13,667.90, of which \$15,099.00 were paid by ratepayers, and \$10,792.50 by non-ratepayers. The balance of the receipts came from the general charge for X-ray service, operating room, medical supplies, and special agreement.

LARGE SUM IN INTEREST

A very considerable amount of the year's revenue came from interest on the investment of the Alberta Provincial Government Bonds, Alberta Provincial bonds, and Alberta Provincial saving certificates, also interest on bank savings account. Altogether this interest amounted to \$2,091.80.

The sum of \$2,829 was paid by the year in interest on principal and interest, leaving a balance of \$2,500.00 principal.

Frank Adams shipped off a cartload of hogs and cattle Tuesday.

EXPENDITURE DURING 1928

The past year's expenditure at the hospital was well balanced around the building, new wing to the hospital building, and also the building of a nurses' home. This was financed with the money in the accumulated revenue earnings and without the loss of a cent due to debts.

Leonard and Clifford McDonald, of Hutton, visited Bill Taunton Monday night.

Frank Adams shipped off a cartload

of hogs and cattle Tuesday.

FIRST INTERIM PAYMENT 1928 POOL

Approximately \$6,000,000 Distributed Among Alberta Pool Members

(Issued by Alberta Wheat Pool)

Under date of March 1st distribution was made, of first interim payment on deliveries to the 1928 pool members amounting to \$2,425 per bushel.

We see Delbert Down, is on the job again driving the pool wagon.

Mr. and Mrs. J. Hall entertained

friends Wednesday night at dinner.

Leonard and Clifford McDonald, of Hutton, visited Bill Taunton Monday night.

Frank Adams shipped off a cartload

of hogs and cattle Tuesday.

COLD WAVE ADDS LENGTH TO WINTER

Wain snowdrifts and biting day

lows were the promise of an early spring, but over the weekend a cold wave, moving down from the north brought a return of winter. The thermometer sagged to around the zero mark, and a couple of inches of snow fell. The wind drifted the snow over the roads, but not enough to stop traffic.

The Sellings Agency to continue a selling policy that will be most

profitable, may possibly attain the highest

rate, to the grower, unhampered

by any cure the market may take

when a large volume of crop remains unsold.

To pursue such a policy

consistently throughout the whole

season the Selling Agency must be

at any and every time in a strong

position and make a profit.

It is necessary to make a

large number of sales, and at

any time make too large an

initial or interim payment, on any

grade the net returns to the grower

will probably suffer as a conse-

quence.

Further, it is necessary to fix the amount of the payment in several weeks in advance of actual delivery in order to take care of the enormous labor required in balancing and closing the accounts of each grower and completing cheques for payment.

The Alberta Pool alone has many thousands of individual accounts, and with this recent payment issued over 28,000 cheques, and the grower must exert himself to ensure accuracy.

It is absolutely essential that the Canadian Wheat Pool proceed carefully and on sound lines to insure the safety and security of its members. Many farmers in this province are still in debt, and the fact of the fact that the pool's first five years of operation convinced that the organization was being administered and conducted along sound business-like lines, and further realized that the pool's system of orderly marketing was sound in principle.

Our pool directors had a difficult situation facing them at date of setting this interim payment with Argentina coming on the market with the very large crop uncrossed in its marketing, and Australia producing fifty million bushels more wheat than last year. It has happened before where over-optimistic leaders

had to eat their words.

See the most unusual love

story ever screened. A greater

triumph than either "Flesh

and the Devil" or "Love".

Wheat Pool Now Making First Interim Payment On The 1928 Crop

Britain Will Adhere To Locarno Treaty

Has Not Considered Any Other Agreement With Foreign Powers

LONDON, Eng.—Godfrey Locker-Lampson, under-secretary of state for foreign affairs, assured House of Commons that Great Britain would enter into no military agreement with other powers that would in any way be contrary to her obligations to Germany under the Locarno pact.

Members in Saskatchewan are receiving \$17,499,334 on 146,414,000 bushels of wheat, and 3,165,500 bushels of flax and rye.

The Alberta Pool payment of \$5,410,653.16 is on 28,000,000 bushels of wheat, and 703,769 bushels of flax and rye.

Members in Saskatchewan are receiving \$17,499,334 on 146,414,000 bushels of wheat, and 3,165,500 bushels of flax and rye.

The Alberta Pool payment of \$5,410,653.16 is on 28,000,000 bushels of wheat, and 703,769 bushels of flax and rye.

The total amount distributed is \$26,108,923.92.

The payment made at this time is the first payment to be made on grain of the 1928 crop remaining in the hands of pool members at the time of delivery by the grower. In 1928 the first interim payment was dated March 6, but pool officials state that date of the payment was advanced to March 10, in order to accommodate the thousands of pool members who have been hard hit financially as a result of the very disastrous crops which occurred on August 23, 1928, and which was general over the three provinces.

The Saskatchewan crop was particularly damaged by this frost owing to the fact that there are so few districts in the province which were not affected in the extent of lowering the grade of the crop from two to four grades.

Commenting on this aspect of the 1928 crop, and on the payment now being made, A. J. McNeil, president of the Saskatchewan Wheat Pool said:

"Notwithstanding the relatively higher price for wheat which prevails now as compared with that of the heavy crop season of 1927, when the Alberta Pool alone was operating in Western Canada, and notwithstanding the exceptionally heavy crop harvested by Saskatchewan farmers, the price of the wheat is such that the wheat grower has just cause to be greatly troubled over the financial returns from his efforts last year. By way of comparison, it may be said that for the 1927 crop, the crop year, August 1 to January 31, 31 bushels of Saskatchewan Pool deliveries from the 1927 crop showed only 22.23 per cent. as falling into the grades from No. 4 to feed, while the corresponding figure for the crop of 1928 is 53.8 per cent. This means that this greatly increased percentage of lower grades from the 1928 crop is the widespread result which occurred in August, 1928.

Purchase New Plane

Universal Airways, Limited, Order Another Aeroplane For Use In Another Province

Rexina—Spicing up their plans with the opening up of the western officials of the Universal Airways Ltd., ordered for immediate delivery of a second airplane for use in their proposed tour and express service in Saskatchewan.

The new machine will be capable of carrying four passengers at 550 miles per hour.

Mr. Bennett had said he would be able to travel at a speed of 135 miles per hour when loaded. It will be able to fly at a speed of 150 miles an hour.

On Friday officials announced that it is proposed to order another machine within the next six or eight weeks. This machine would be the third of its kind purchased.

For Educational Purposes

Brampton, Ont.—That the Ontario government act aside one-eighteenth of all the natural resources that came under provincial control for educational purposes will be urged as a result of a resolution passed unanimously by the annual convention of the Manitoba School Trustees Association.

Westminster Glee Singers

Famous Organization Making Tour Of Western Canada

Outstanding among the musical events of the present season is the visit of the Westminster Glee Singers, who are at present touring Western Canada. The excellence of this traditional group of singers is known throughout the Empire, and music of the Canadian West.

Prince Albert, March 8 and 9; Saskatoon, March 11, 12 and 13; North Battleford, March 14; Moose Jaw, March 15; Vegreville, March 16; Olds, March 18; Ponoka, March 19; Red Deer, March 20; Edmonton, March 21, 22, 23; Calgary, March 25, 26, 27; Lethbridge, March 28; MacMurray, April 1 and 2; Coleman, April 8; Coleman, April 9; Peeweston, April 10; Craibrook, April 11; Nelson, April, 13; Peeweston, April 15; Kelowna, April 16; Vernon, April 17; Kamloops, April 18; Chilliwack, April 19; Vancouver week commencing April 22nd.

Appointed To Tariff Commission

Ottawa—Hon. James Boles, minister of finance, announced the appointment of Frank S. Jacobs, D.S.A., of Dewinton, Alta., to the vacancy on the tariff advisory board. Mr. Jacobs is a farmer, and succeeds Hon. D. G. McKenzie, who resigned to enter the provincial government of Manitoba.

Closure Town Jail

Danville, Ill.—With the office of chief of police abolished as unnecessary and the lock-up abandoned as a mere trap, this town of 6,000 inhabitants is now depending on the honor system to keep law and order. Danville has fined the prospect of lodging in the village hotel at the city's expense.

Complete Trip By Boat

Sagon, French Indo-China.—The French aviators, Joseph Lebriz and Sergt. Major Antoine Paulard, will complete their trip to France about April 15. Post horn signals during March 5, a message here states. It is said their plane was wrecked in the crash which occurred about 122 miles from Hanoi. The occupants were unharmed.

Appointed To Tariff Commission

Ottawa—Hon. James Boles, minister of finance, announced the appointment of Frank S. Jacobs, D.S.A., of Dewinton, Alta., to the vacancy on the tariff advisory board. Mr. Jacobs is a farmer, and succeeds Hon. D. G. McKenzie, who resigned to enter the provincial government of Manitoba.

Trained Operators In Charge

Trained operators in charge of radio-equipped cars in daily service on the Canadian National Railways travelled a total of 613,426 miles during 1928, and the most traveled operator during the twelve months was R. K. Anderson, who may well lay claim to a world's record for his long-distance driving. The Canadian National Railways, a division of the commission, has the circumnavigation of the globe several times. This operator is usually on duty on board the International Limited, the fast daily train operating between Montreal and Chicago. Trains on eight runs on the National System carry radio equipped cars, the Canadian National Railways being the first in the world to offer radio as part of the service provided for passengers.

The illustration shows Mr. Anderson seated at the receiving apparatus in a library, compartment, observation car.

Application Is Dropped

Canadian Northeastern Not Building Railway Into Peace River Country

Vancouver, B.C.—The Canadian Northeastern has withdrawn its application for right to build into the Peace River country and will not conflict with any plans which may be made in that direction for the Pacific Great Eastern, the provincially-owned line. The original application dropped, approval of the private bills committee of the legislature was given to the company's request for right to build a line for 250 miles from Stewart, a tidewater port in northwestern British Columbia, to Fort Graham, in the central, northern part of the province.

The Northeastern also dropped its request for right to branch up the Finlay river from Fort St. John for 100 miles, pending decision of the future of the government line.

Famous Flyer In Accident

Col. Lindberg and His Flaneur, Miss Mexico City—Colonel Charles A. Lindbergh's flying skill saved the life of Miss Anne Morrow, when their plane crashed on landing at Valhalla Field.

The colonel is confined to the American embassy residence with what Lindbergh describes as "a slight cold." Miss Morrow was badly frightened, but not injured.

Colonel Lindbergh was returning from an air trip of several hours when they got into the weather.

The aeroplane, a single monoplane named the "City of Wichita," had been crippled by the loss of a landing wheel and the colonel tried to make a landing on a road.

He brought the plane safely to earth and taxied for thirty yards on one wheel with the axle of the missing wheel dragging on the ground, then set the plane pitched forward and turned it around.

Later, Colonel Lindbergh declared that this nothing at all. It is simply a mishap."

Agreement has been reached to transfer to British Columbia lands the Peace River railway line.

At present officers of the department concerned are working on the necessary arrangements having to do with the transfer.

Regina, March 10—A committee has been engaged on matters concerning the handing over to that province of its lawful resources.

The new machine will be capable of carrying four passengers at 550 miles per hour.

The Prime Minister made only a passing reference to the Seven Sisters Power project in his speech to the Fraser Falls branch of the Canadian Electric Company.

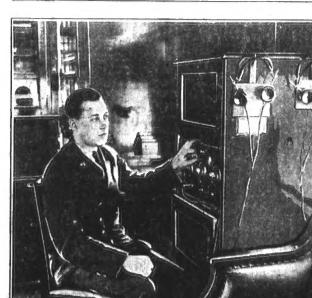

Earlier in the session, the Premier had been critical of the haste with which Mr. Bennett claimed he prompted the government in its return of the natural resources to the people.

Premier Taschereau had been attending a committee meeting in the parliament buildings and at its conclusion returned to his office.

Sitting in the dark light, only he noticed the dynamite lying on the floor.

Premier Taschereau had the explosive removed by police and it was discovered to be dynamite of the most powerful type.

Radio Operator Has Travel Record

Trained operators in charge of radio-equipped cars in daily service on the Canadian National Railways travelled a total of 613,426 miles during 1928, and the most traveled operator during the twelve months was R. K. Anderson, who may well lay claim to a world's record for his long-distance driving. The Canadian National Railways, a division of the commission, has the circumnavigation of the globe several times. This operator is usually on duty on board the International Limited, the fast daily train operating between Montreal and Chicago. Trains on eight runs on the National System carry radio equipped cars, the Canadian National Railways being the first in the world to offer radio as part of the service provided for passengers.

The illustration shows Mr. Anderson seated at the receiving apparatus in a library, compartment, observation car.

RECEIVES NEW APPOINTMENT

J. M. McKay, newly appointed General Agricultural Agent, Western Lines, Canadian Pacific Railway.

Employment Situation Shows Improvement

Better In Canada Than In Any February On Record

OTTAWA—Employment in Canada on February 1 was better than on February 1, 1927, according to the Dominion Bureau of Statistics. Reports from 6,391 firms showed a total of 63,642 employees as compared with 60,911 on February 1.

The contraction on the prairie provinces was less than on February 1, 1928.

The situation continued better than on the same date in any year since 1923, when the war was advanced, while there was a shrinkage in trade, construction, transportation and communications.

The situation was also better in British Columbia as compared with February 1, 1927.

There was substantial improvement in mining but logging, manufacturing and transportation were slacker.

The situation in the Prairie provinces was better in February 1, 1928, than in any February on record.

A certain professor has been exposing old myths, but the young ones of course have been expounding their knees for them time.

Speaking of your patent lighter, how many cigarettes do you light to the gallon?

The two opposition leaders have suggested almost everything for the minister of health except a vacation at Pukka.

With the additional 2¢ gasoline tax exempt on fuel used for agricultural purposes, most car owners are figuring how they can farm with less cost this year. A lot of plowing was done last year, but it was through the mud on the neglected highways.

When Einstein says only a handful of people are capable of performing the mathematical gymnastics necessary to understand his theories, he forgets that many of us have experience in making out income tax returns.

THE HOSPITAL REPORT

We wish to call the attention of our readers to the annual report and financial statement of the Bassano Municipal Hospital District. The report appears in this issue of The Mail. It shows the splendid financial condition of the hospital district, one of the most solid in the province, and outlines the work and progress made during the past year.

OUR CANADIAN PERIODICALS

Canadian periodicals and newspapers have a large circulation in Canada, and a resulting American influence on Canadian life, that it is gratifying to find several Canadian magazines which are widely read and gaining in popularity every year. Maclean's Magazine, The Western Home Journal, and The Financial Post are a few of the Canadian publications which are playing a part in providing Canadians with Canadian stories, articles, and information.

Periodicals and others, are excellent reading and equal to most magazines printed south of the International boundary.

During the past few years the quality and quantity of Canadian publications have been greatly improved, and the future holds still greater things for Canadian publications and Canadian readers.

WHAT OF THE BRIDGE

Although Bassano citizens and farmers have been talking about a bridge over the river, they have not given up the idea. The need for a bridge is as urgent now as it ever was and the subject is not going to be dropped.

The Bassano Board of Trade discussed this subject at their last session and decided that the matter should be brought up again by further urging upon the Department of Public Works the great need of a bridge crossing.

When the Cluny bridge was washed out last spring, the department spent a large sum of money in replacing the bridge. Had the money not been spent on buildings, the bridge father down the river they would have conformed with the wishes of the majority of farmers who use the crossing, and the bridge would have been located where it could best serve their interests.

The Cluny bridge, being only feet above the water, can be used in the Gleichen bridge, is a duplication.

Most farmers who use it would greatly prefer to cross the river some miles east of the Cluny bridge.

The Provincial Department of Public Works claim they have not the money with which to build another bridge. We are informed the liquor profits distributed to the municipalities, as is done in British Columbia, the financing of a new bridge would be a simple matter. Even under present financial conditions, the need for a new bridge is worth the expenditure, and is a superior policy to that of spending the same money where the people do not want it, as was done when the Cluny bridge was rebuilt last spring.

And Sam's Tale
Teacher — "Sam, you're Henry. This essay of yours on 'Our Dog' is word for word the same as your brother's." Henry: "Sure, it's the same dog."

Cat the Clergyman
A doctor declares that kissing shortens life. We presume he means single life.

Line of Demarcation
Question: "What's the difference between a newspaper man and a journalist?"
Answer: "A journalist carries a cane, wears spats and accepts invitations to afternoon tea."

Sharing Power
She — "I hear that your old aunt has a will of her own."
He (tired of waiting) — I know she has. I only wish she'd give us a chance to probate it."

Nature Abhors a Vacuum
First Chorus Girl: "Why did淑 come go to Robert's head?"
Second Chorus: "So much parking space there."

Convinced

TIMELY farming demands ready power. Power that will answer your call whenever you need it. Power that can take the job down to the last acre. That is the power of the Allis-Chalmers 20-35 Tractor. And this fact, too, is being proven daily on farms all over the country — that the Allis-Chalmers will plow more land faster than any other tractor. This performance of the 20-35 is due to its ability to prove its cost horses pass.

Bodies by Fisher make the new motor
car the most advanced automobile
front seat, full-width rear seat, adjustable steering
column and other luxurious features set
the McLaughlin-Buick apart from all other
new cars reveals equal leadership in en-
gineering.

The new McLaughlin-Buick Valve-in-Head
engine is the most powerful automobile
engine in the world. The new Mc-
Laughlin-Buick carburetor and constant-speed
gear give you more power than any car
on the market can offer. The new McLaughlin-
Buick double-drop frame is the sturdiest in
this field. The McLaughlin-Buick has
modern all-powerful brakes, disc-proof,
water-tight housings. And McLaughlin-
Buick's shock absorbers insure lasting
riding luxury.

facts like these explain why the new Mc-
Laughlin-Buick leads in performance, appear-
ance and value, and why buyers are showing
it the greatest preference over almost any fine
car.

gary over the week-end.

W. J. Blankschein was a week-end
visitor to Calgary.

C. J. Porrill, of Drumheller was in
town over the week-end.

A. G. Bond spent the week-end in
Calgary.

H. W. Ford made a business trip
to Calgary on Tuesday.

Jimmie Pierce made a business
trip to Calgary on Tuesday.

Harvey Smith was in Calgary on
business Tuesday.

Mrs. Eva Simpson spent the week-
end in Bassano, the guest of Miss
Mabel Baile.

Mrs. Sybil Shepherd, of Hussar, is
a patient in the local hospital. She
is doing nicely after an operation.

About twenty of the younger set
of Bassano attended the Rosemary
dance last Friday.

H. T. Johnston attended a confer-
ence of telephone men in Calgary on
Monday.

Gilber, Sterling, of Hussar, is in
the Bassano Hospital recovering af-
ter an operation.

Mrs. E. Blins returned on Sunday
after spending the past few months in
the States.

Mrs. Chas. Hopkins was the guest
of Mrs. A. Dushy in Calgary over the
week-end.

Little Lawrence Horn, of Duchess,
was brought to the Bassano Hospital
suffering with a broken leg. He is now
getting on fine.

The Ladies' Altar Society will hold
a St. Patrick's whisk drive and
social evening in the Masonic Com-
munity Hall on Friday, March 16th.

The Ladie's Aid is giving a Sham
Rock Tea in Knox Presbyterian
Church on Saturday, March 9th, from
3 till 6 p.m.

Mrs. Ralph Robson and children
returned last Sunday from Vancouver
where they have been visiting for
the past few months. Miss Ida is still
in Vancouver.

Betha

The following births have occurred
at the Bassano Hospital:

A daughter, to Mr. and Mrs. Sam
Long, of Mapesope, on Monday,
Feb. 25th.

A daughter, to Mr. and Mrs. D.
Kamp, of Bassano, on Monday, Feb.
26th.

A son, to Mr. and Mrs. D. Allen, of
Bassano, on Monday, Feb. 25th.

A son was born to Mr. and Mrs. G.
McNutt, of Bassano, on Tuesday, Feb.
26th.

A New Invention

"It's a wonder when people are
presenting gifts to newly married
couples, they don't occasionally give
them a clock," writes a sarcastic cor-
respondent.

Speaking of that, we recall a sign
we noticed recently over the clock
counter in a Jeweler's shop:

"Get your wedding present here
now. No time like the present and no
present like the time."

POOL ELEVATOR PROGRAM

A tentative list of points at which
the Alberta Pool will build or
pool elevators during the year
has been issued from the Pool
office. The total number of points
is fifty-six, but the list is not pointed
out, as by no means a final one.

The Alberta Pool has now 318 ele-
vators located at country points, and
the addition of the new branch total
number up to 374. The list may be
enlarged considerably as the season
develops, but the increase will depend
upon various factors.

The number of elevators which will
be built and the number purchased
will depend on the prices asked by
elevator companies for elevators they
are willing to sell, and also on the
price of lumber.

Whenever the Pool decides to go
into a new point, it is usual for the
organization to make an offer to pur-
chase an elevator there which will meet
the requirements. If the price is right,
the pool will acquire a considerable
number of houses and avoid a wasteful
duplication.

A number of points are under consider-
ation for a second Pool house
because of extraordinary large deliv-
erys of Park wheat, but a definite
decision as to these has not as yet
been reached.

C. N. R. TO BUILD
ALBERTA BRANCH LINE

Or the 665 miles of branch lines
construction which is proposed by
the Canadian National Railways dur-
ing the next few years, 300 miles
are in Alberta. The longest stretch
in the province is 82 miles of new
construction to run south-easterly
from Alliance to near Doherty on
the Calgary-Saskatoon line. One of the
longest stretches of branch line in the
large area of good agricultural land
in Alberta will considerably shorten the
haul for grain and other shipments
to Edmonton. From this new line before

a branch 26 miles in length will be
built in a north-easterly direction
from Bulwark. The building pro-
gram in Alberta also includes the
extension of the Lethbridge line from
its present terminus at Memphrums
to Lethbridge, the Hanna-Warder line,
a distance of 41 miles following the
route originally projected by the
Grand Trunk Pacific.

KNOW YOUR DRUGGIST BETTER
He's your Doctor's right-hand man

LIGHTS

that Guard Life

We are all too apt to think of and treat our friend
the Druggist as just another merchant.

But think a moment. At night, when other
stores are closed you see the lights of the friendly drug-
store gleaming out into the darkness. Even on Sundays
when other merchants take their hard-earned rest, his
fine tradition of service keeps the Druggist at his post,
ready to help meet every emergency in his neighborhood.

The men who elect to serve the community as a
registered pharmacist must have more than the commercial
point of view. He must always be ready to assist
the Physician. His skill in the compounding of
prescription medicine is of infinite value. Not only must he
know the properties of every ingredient, but he must
guard as well his purity and fitness for use.

Behind those who send a gleam of hope out
into the night is a spirit of sympathy and service, backed
by special knowledge earned by long years of study at
college and of training in actual service.

STILES "The Druggist"

Bassano and Hussar

**MORE
DEFINITELY
THAN EVER
“TWO YEARS
AHEAD”**

LAST year, engineers and critics pro-
nounced Oldsmobile "two years ahead."
Verifying the slogan, Oldsmobile has
won many awards in competition in
every section of the country.

Now, as the result of this success, a still
finer Oldsmobile is introduced... an Olds-
mobile more definitely than ever "two
years ahead"... with many desirable re-
finements and new LOWER PRICES.

Oldsmobile's big high-compression engine
now has a larger displacement. The engine
cylinders are now pressure-lubricated—an en-
gineering feature heretofore characteristic
of high-priced cars.

Style touches include headlamps of new
design mounted on chromium-plated
stands, a new cadet-type visor, and an
unusual selection of voguish new interior
colorings.

And Oldsmobile now has the wonderful
new Fisher adjustable front seat.
See this Fine Oldsmobile of lower price,
at our showroom.

You Can't Dye a Dress with Promises!

You can't dye a dress no matter how careful you may be without real color. That's the idea behind Diamond Dyes, and it is the reason why you can never get more than three to five times more color than other dyes on the market.

Next time you want to dye a Diamond Dyes. See how easy it is to do. The packages provide. Notice also that the re-dyed look; of streaking, or spotting. See how soft, bright, new looking the colors are. Then observe how they keep their brilliance through many washings. You will see that Diamond Dyes are better dyes, your dealer will refund your money.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or fad silk, cotton, wool, rayon, acetate, and other fabrics. The white package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the secret preparations of the dyers of old. The blue package is a special dye for silk or wool only. The white package will dye every kind of good, including silk and wool.

Your dealer has packages.

WORLD HAPPENINGS BRIEFLY TOLD

Vancouver, B.C., is under serious consideration as the site for the next \$50,000 Wrigley marathon swim. Elwood Hughes, director of the event, has announced.

The Duke of Kent, London, Eng., says he has asked the Canadian minister of the interior to refuse Leon Trotsky a passport visa to permit him to enter that country.

Reports from apparently well-informed quarters in Canton said the Chinese government expects the Nationalist government at Nanking soon to launch a military campaign against it.

The addition of the lash to penalties for trafficking in drugs was approved by the special committee of the House of Commons, which is considering amendments to the Opium and Narcotic Drugs Act.

Approximately 35,000 bushels of seed have been graded and sealed under registered grades since the Dominion seed branch of the Department of Agriculture started operations in Saskatoon at the beginning of the year.

The recommendations of the Imperial wireless and cable conference, 1928, have been in general accepted by the Canadian government, including the government of Canada. Hon. P. J. Venot, postmaster-general, stated in the House of Commons.

The Toronto city council has authorized the Mayor of Toronto to call for designs for a memorial to Sir Adam Beck. The memorial is not to cost more than \$25,000, and its main feature is to be a bronze statue of Sir Adam. The monument will be erected on University Avenue, Toronto.

Abolition of co-education in secondary schools and establishment of separate high schools for boys and girls throughout the province to be staffed by men and women teachers respectively, was the drastic change in the system of education in the province of Alberta, suggested by Colonel C. Y. Weaver, Conservative, Edmonton.

Fishing With Power

Electricity has solved the use of fishing nets in lakes or rivers or for many. Two copper cables, placed one on top and one below the water, are charged with electricity. Fish in the vicinity are electrified and come to the surface where they are gathered by these modern fishermen.

A man's pessimistic views are often caused by an intimate acquaintance with himself.

Nobody ever has to take a tonic to create an appetite for flattery.

THE EASY WAY

Thousands need cod-liver oil to increase vitality and build up resistance.

Scott's Emulsion
is the easy and pleasant way to extract the most out of cod-liver oil to reinforce your body with strength to build resistance.

Scott & Sons, Toronto, Ont.

Registered Seed More Profitable To Sow

Although Cost Is Higher, A Substantial Profit Is Shown

After the registered seed of oats, wheat, barley and peas were sown side by side in land of equal richness on the experimental station, St. Anne de la Pocatiere, Quebec. When the crops were harvested, it was found that the yield was a substantial profit secured from the use of the registered seed, the cost of which was about two-thirds higher in each case than the unregistered seed. There was also a larger return against the registered seed of 15 cents per acre for inspection fees, seed and a small per cent additional profit for handling and a census per bushel for registration.

Expressed in money the profit per acre from the registered seed amounts to \$1.10 for the oats, \$1.00 for wheat, \$1.80 for the barley, and \$1.20 for the peas. The further details with respect to this test and other tests carried on at the St. Anne de la Pocatiere Station are recorded in the report of the superintendent for 1927, published by the Department of Agriculture, at Ottawa.

Edison Probably High In Statement About Human Knowledge

Interviewed on his last birthday, Thomas Alva Edison, speaking with regard to future scientific progress, said: "We don't know one-millionth, one per cent about anything."

For man whose head contains more scientific knowledge than that of almost any other human being, that is a strong statement to make, but Mr. Edison is probably right. His mind has moved rapidly and tremendously during the last hundred years that we are apt to think we have almost exhausted the sources of knowledge. The pace of progress, particularly since the Great War, has been so great that anything we have known to the secret of life must have ceased to wonder us. We say, "What next?" and take the newest marvel for granted. A new discovery has no "kick" for us nowadays.

And yet, we cannot think of what people have known on thousand or even even hundreds years ago, we can not even imagine what people will know one thousand or one thousand years hence. Comparatively speaking, we seem a race ignorant people in the years 2000 and 3000 than those who lived in the early period of the Victoria age appear to us now.

This is the result of the present scientific development of a new era of invention. Then electricity took its place, and that opened up another era. Electricity is a young science, and only a few years ago our workers workers discovered the means of transmission of electricity by means of radio. And the possibilities of radio have scarcely been touched yet.

A day is coming when electricity will be as common as the presence of pre-electric or pre-street lamps. When scientists succeed in harnessing the atom — and we are working at it all over the world — the world will see changes which will make everything else at the present time seem like the condition of affairs at the dawn of civilization.

Titles Used in Sweden

Everyone Is Designated By Naming Their Profession Or Calling

The Swedes are an intensely realistic people. Their daily manners — above all, their dinner table customs — testify to this. Nowhere else in the world is there such a frankness in eating, such a frankness accompanied by such laborious, but not effusive, bowings and handshakings. At the dinner table a not yet extinct custom requires that no woman drink without an invitation from the host. She must wait until the host has drunk, and then she may do so.

"Finally it breaks off into the water, and there, at the breaking line, Byrd has his base, but because this glacier is so different from others the tiny scientific city on the edge of Ross Sea is built on the ice.

"One peculiar feature is that at the bay the shore line has remained fixed. In this region the ice breaks off along about the same contour year after year. The reason is not yet clear, but it may be due to the configuration of the Ross Sea bottom. This bay is comparatively close to the eastern shore of Ross Sea.

"The date on the bergs cast adrift from the 300 or more sea miles front of this glacier reveal another of the interesting features of the life from other glaciars. The breaking off of the ice is rhythmic, that is, it proceeds in waves, covering long periods of time, whereby in some years a single berg is many times greater than at the other end of the glacier. The glacier moves forward at a little less than 500 feet annually.

"Some of the bergs are described as whoppers. So vast are the masses of ice that when they fall into the tropics, they melt and become a sort of ocean current to claim to steam.

"At the principal Stockholm club the guestbook contains a column in which, after the guest's name, his title is to be inserted. There was not an empty space in the column, except after the names of two Englishmen.

Productivity Of Mosquitoes

One Lone Mosquito Reproduces Billions Yearly, Says Scientist

The normal productivity of one lone female mosquito in a year is 150,875,000 offspring, said Dr. J. H. Gossage, entomologist of the New Jersey agricultural experiment station, when addressing the annual convention of the New Jersey Mosquito Extermination Association at Atlantic City.

Mr. Gossage revealed that they were married when Lovelock was making but \$2.50 a week and that shortly after his salary was reduced to \$2.25.

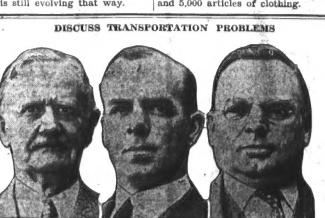

Village Druggist—Joey, I wonder what we do to get the passers-by to see the goods in the front window?

Joey—Wash 'em.

Scientist says life evolved in a series of jumps and a cursory inspection of our surroundings convinced us it is still evolving that way.

It is the 40 years since its organization, the Bowery Mission, New York, has distributed 172,409 free meals and 5,000 articles of clothing.

DISCUSS TRANSPORTATION PROBLEMS

Traffic experts from leading industries in the United States and Canada attended the annual convention of the Canadian Industrial Traffic League to discuss problems of transportation common to both countries. (1) C. L. Hillary, traffic manager, F. W. Woolworth Co., New York City, who believes that "container service" is a development of the future but sounds a note of caution regarding its introduction by the Dominie (2) A. Wheeler, traffic manager for the Dominion Government Railways, Arthur, Ontario, traffic manager, Special Freight and Paper Co., who attended the conference. He is of the opinion that Canada should allow the United States to demonstrate the success of the proposed "container service" before adopting it in this country.

Bar Is Established By Byrd Expedition

Spot At Lig Of Glacier Is Safest Site
In Antarctic

The Bay is the site, where the Byrd Antarctic expedition is building its base, is actually on the lip of a glacier 300 miles or more wide.

Seemingly one of the most popular spots for an explorer's head-quarters. It nevertheless is only a few miles from the village of Whalers. The story of this glacier, in the century that men have known it, is an epic.

"It is the brainchild of the late Sir Ernest Shackleton, who raised about \$100,000,000, twice as much to the Canadian wheat grower as the markets of all the rest of the world taken together.

John was dismissed from his work for an offence of which he was innocent, he said. He enlisted in the Foreign Legion.

"John became in this remarkable adventure John, 22, and Harry and Sidney Travers, 19-year-old twins stepsons of a retired business man.

Because John was dismissed from his work for an offence of which he was innocent, he said. He enlisted in the Foreign Legion.

"John was employed as a clerk in a shipping office. A ship he was raised about \$100,000,000, twice as much to the Canadian wheat grower as the markets of all the rest of the world taken together.

John was employed as a clerk in a shipping office. A ship he was raised about \$100,000,000, twice as much to the Canadian wheat grower as the markets of all the rest of the world taken together.
